

## **San Francisco Cyber Sentinel Tabletop Exercise**

**Tuesday March 26, 2019 9am-3pm  
1700 17<sup>th</sup> St. San Francisco, CA 94103**

The Northern California Regional Intelligence Center (NCRIC) is hosting a cyber tabletop exercise with the Department of Homeland Security's National Cybersecurity and Communications Integration Center (NCCIC). The scenario centers on cyberattacks in San Francisco including ransomware, industrial control system disruption, and distributed denial of service (DDoS) attacks. Goals include identifying actual formal and informal information exchange mechanisms, establishing common incident alert thresholds, highlighting infrastructure interdependencies, exploring the intersection of technical and public safety functions, as well as building cyber incident reporting and response capabilities. NCRIC public and private sector partners with cybersecurity responsibilities are encouraged to participate.
