

Technology Threats & Trends in Narcotic Investigations

Hosted by:
Northeast Counterdrug Training Center

This is a unique and eye-opening class for officers and prosecutors who want to learn more on how technology is being used to avoid or detect their narcotics investigations. In almost every major investigation and undercover drug buy, a variety of technologies are incorporated into the investigative process. However, most officers aren't looking at what technologies their targets may be employing to avoid detection. This class will examine a number of different technologies from Caller ID spoofing to Steganography, but from an investigating officer's perspective as it relates to their target.

WHEN

July 23-24, 2019
8:00 a.m - 5:30 p.m
